Tutte le parti in metallo sono realizzate in acciaio S235 o superiore

All of metal parts are made of steel S235 or better.

Alle Metallteile sind aus Stahl S235 oder besser gemacht.

Gradini in legno di faggio, quercia o altri tipi di legno nella classe di resistenza D70.

Wooden steps made of beech, oak or other kind of wood in D70 toughness class.

Holzterappe aus Buche, Eiche oder anderen Holzarten in der Klasse D70 gemacht.

! Attention! / Attenzione!

After 7 days usage top nut of main part should be tighten. The rest of threaded connections should be checked and possibly tighten. Humidity fluctuants affect wooden steps volume changing. Be adviced about necessity of top nut tightening when the significant humidity variation accures.

Dopo 7 giorni di utilizzo, il dado superiore della parte principale deve essere stretto.

Il resto delle connessioni filettate dovrebbero essere controllate e se necessario strette.

Le fluttuazioni dell'umidità influenzano il cambiamento di volume dei gradini di legno.

E' opportuno perciò verificare il serraggio dei dadi quando ci sono significative variazioni di umidità.
